

Non metal laser cutting machine

Choosing us is equal to choosing protection

Good quality and high configuration

CHOOSING US IS EQUAL
TO CHOOSING PROTECTION

Scientific design

High-precision

Good effect

Rapid production

User-friendly design

Easy operation

Beautiful and practical

Product Details

CHOOSING US IS EQUAL
TO CHOOSING PROTECTION

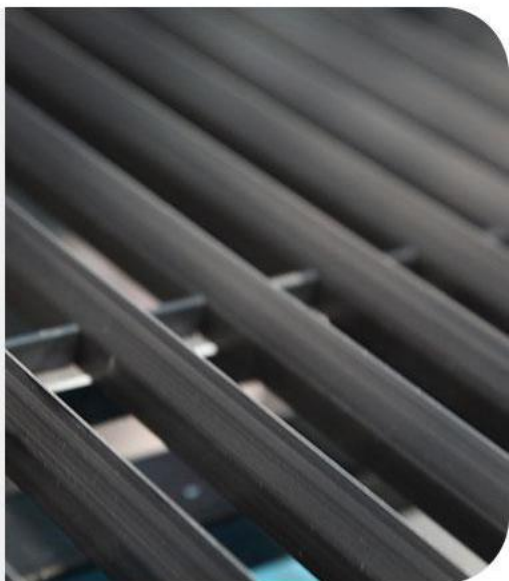

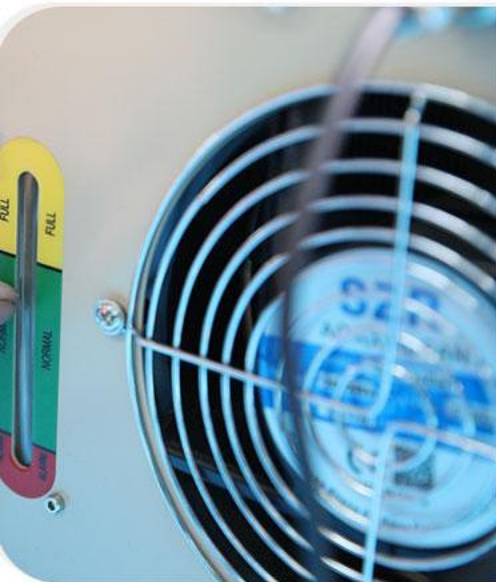

New upgrade of laser head

Strong beam stability,
fast cutting speed, and
auto focus function

Knife platform

Oxidation blade, low reflectivity,
each blade is separately leveled,
and the cutting width is smooth

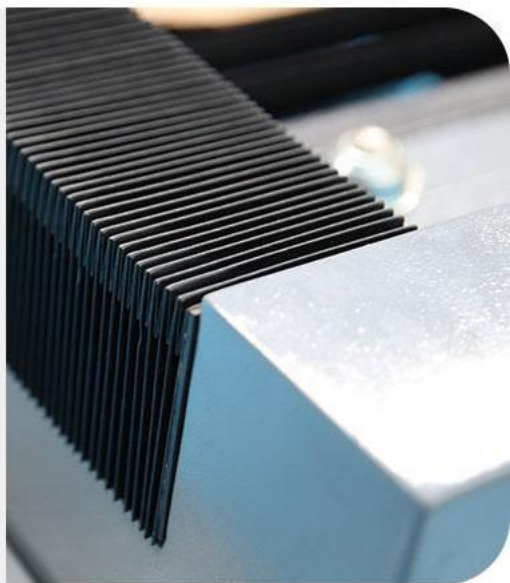

Control cabinet fan

Cooling control cabinet cooling machine can operate for a long time

Dust cover

The guide rail protective cover of the laser cutting machine is well sealed, runs stably, does not deform when hard objects collide, and has a long service life

Y-axis belt pressing transmission

Y-axis belt pressing transmission , with balanced force and reduced belt vibration
