

LED Neon Strips

Made by **100%** pure Silicon and 2835 Taiwan-Epistar SMD

Selected 2835 chips

Flame retardant environmental
protection adhesive

Anti dead bead technology

Copper conductor

360 DEGREE LUMINOUS BRIGHTNESS UPGRADE

High quality LED chip flame retardant rubber copper conductor

360°

CIRCULAR LUMINESCENCE

Flex Neon Trips are waterproof with IP grade 65

Silicone integrated sealing and waterproof,
which can be used outdoors

IP65

Fireproof

100% virgin silicon cover

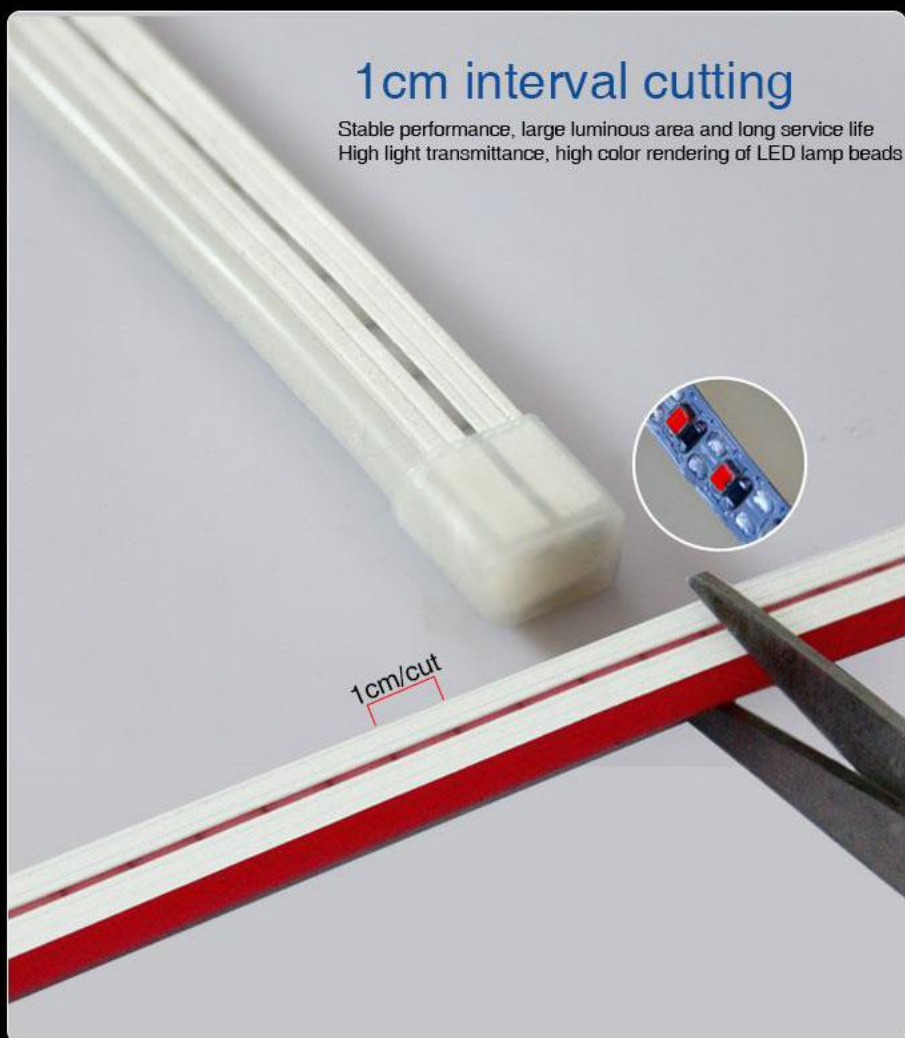

High flexibility and toughness arbitrary bending

1cm interval cutting

Stable performance, large luminous area and long service life
High light transmittance, high color rendering of LED lamp beads

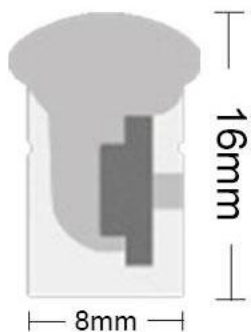

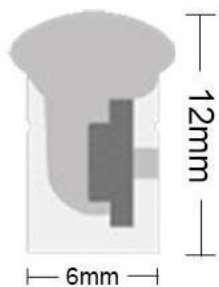

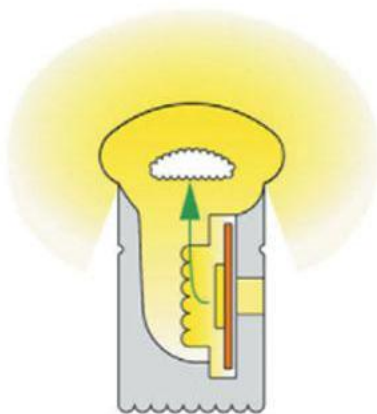

6x12mm

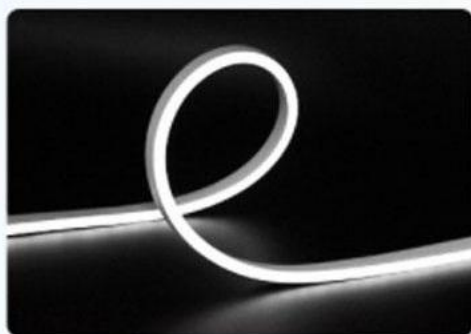

8x16mm

Positive luminescence

LIGHT WITH COLOR DISPLAY

Cold white

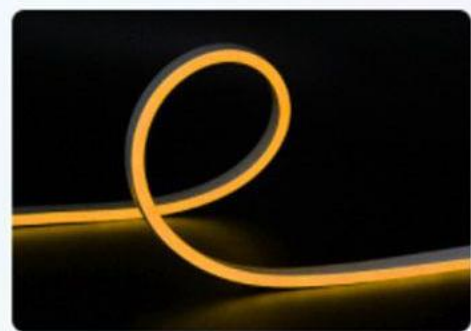

Warm white

Pure white

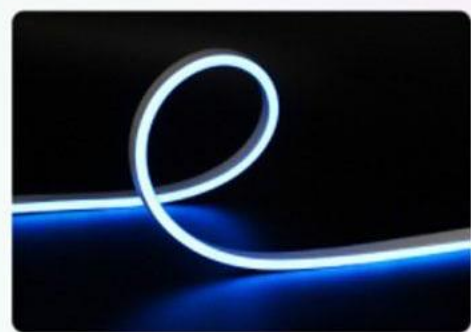

Red

yellow

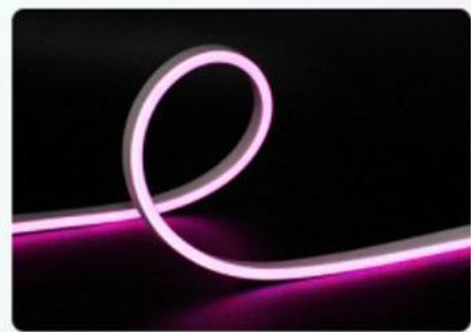

Ice blue

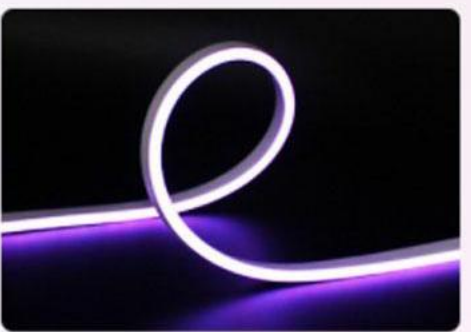

blue

green

Pink

purple

Packaging display

Size	6*12mm
1 roll	5m
1 box	20 rolls
Box size	410*235*280mm
